

Dear FCC,  
I would like to take a moment to as that you reject the NAB's petition 04-160.

I choose to buy XM radio for the wholsome variety of programming available.  
With in two days of setting up my satellite radio I canceled satellite TV in my house and the idiot box is out in the storage shed.

I live in the rural Blue Ridge Mts. of NC - we are never going to get high speed internet (another failed government promise) in spite of the fact that I have been paying the Gore Telephone Tax for over a decade - for the first time in my life I have high quality delievery or a very high quality product and the NAB what to dumb down my choices.

STOP IT.
